

Congo Industrial Platform (CIP)

SPEARHEADING DRC'S INDUSTRIAL TRANSFORMATION

CIP is a groundbreaking initiative revolutionizing DRC's industrial landscape. This flagship public-private partnership between ARISE IIP and the DRC government promotes local processing of raw materials

Investing in CIP positions businesses at the forefront of DRC's industrial transformation, leveraging abundant resources and strategic advantages for growth and profitability.

Highlights

STRATEGIC LOCATION

- 40 km from Kinshasa port
- 20 km from Kinshasa airport, facilitating exports of processed goods
- Access to 1,700 km of river connectivity, enabling efficient raw material transportation
- Central Africa, access to regional markets

SUSTAINABLE INDUSTRIALIZATION

- Designed in compliance with international environmental standards to ensure responsible resource utilization.
- Promoting sustainable practices in manufacturing and processing industries.

TARGET SECTORS

- Timber processing
- FMCG
- Pharmaceuticals & Cosmetics
- Construction Materials
- White Goods Assembly
- Recycling

ECONOMIC IMPACT

- Projected to generate over \$850 million in direct foreign investments.
- Creation of 20,000 skilled and semi-skilled jobs in manufacturing and related industries.
- Unlocking over \$1 billion worth of untapped opportunities in industrial processing.
- Direct access to a market of almost 20 million people, with strategic logistics connections.

Why Invest in DRC through CIP

Government support

- Public-private partnership aligns with national goals.
- Potential for favorable policies and incentives.

Large and growing market

- 102 million population.
- Serve domestic and neighboring markets.

Vast untapped resources

- DRC boasts an abundance of natural resources, including minerals, timber, and agricultural potential.
- CIP offers a unique opportunity to tap into these resources at their source.

Cost-effective production

- Local raw materials and labor = competitive costs.
- Export-oriented manufacturing advantage.

Value addition potential

- Transform raw materials into higher-value products.
- Benefit from processed goods' price premium.

Sustainable development

- Boost economic growth and job creation.
- Engage in environmentally conscious industrialisation.
- 7.8% GDP growth rate, promising ROI.
- Rapid industrial sector expansion.

Diversification opportunity

- Diversify beyond mining into high-potential manufacturing.
- Spread risk across multiple sectors.

Tax breaks

- Attractive tax incentives for foreign investors.

MARKET OVERVIEW

7.8% GDP Growth

102 M population

2.345 M km² area

ARISE Integrated Industrial Platforms (ARISE IIP) designs, finances, conceives, and operates industrial ecosystems across Africa, identifying industrial gaps and creating tailored solutions for sustainable transformation, boosting exports, and promoting trade.

Operates 11 ecosystems across Africa, including Chad, Ivory Coast, Rwanda, Togo, Benin, Nigeria, Malawi, Congo, DRC, Sierra Leone, and Cameroon.
